

MAPPING THE REGIONAL ICT PROJECTS

Draft 2. Yacine Khelladi, January 2006

This file will be updated here:

www.yacine.net/pub/

As a volunteer exercise I pretend to map in this document Caribbean Regional (donors supported) ICT projects

The graphic map is followed by the first draft table summarizing data I have available

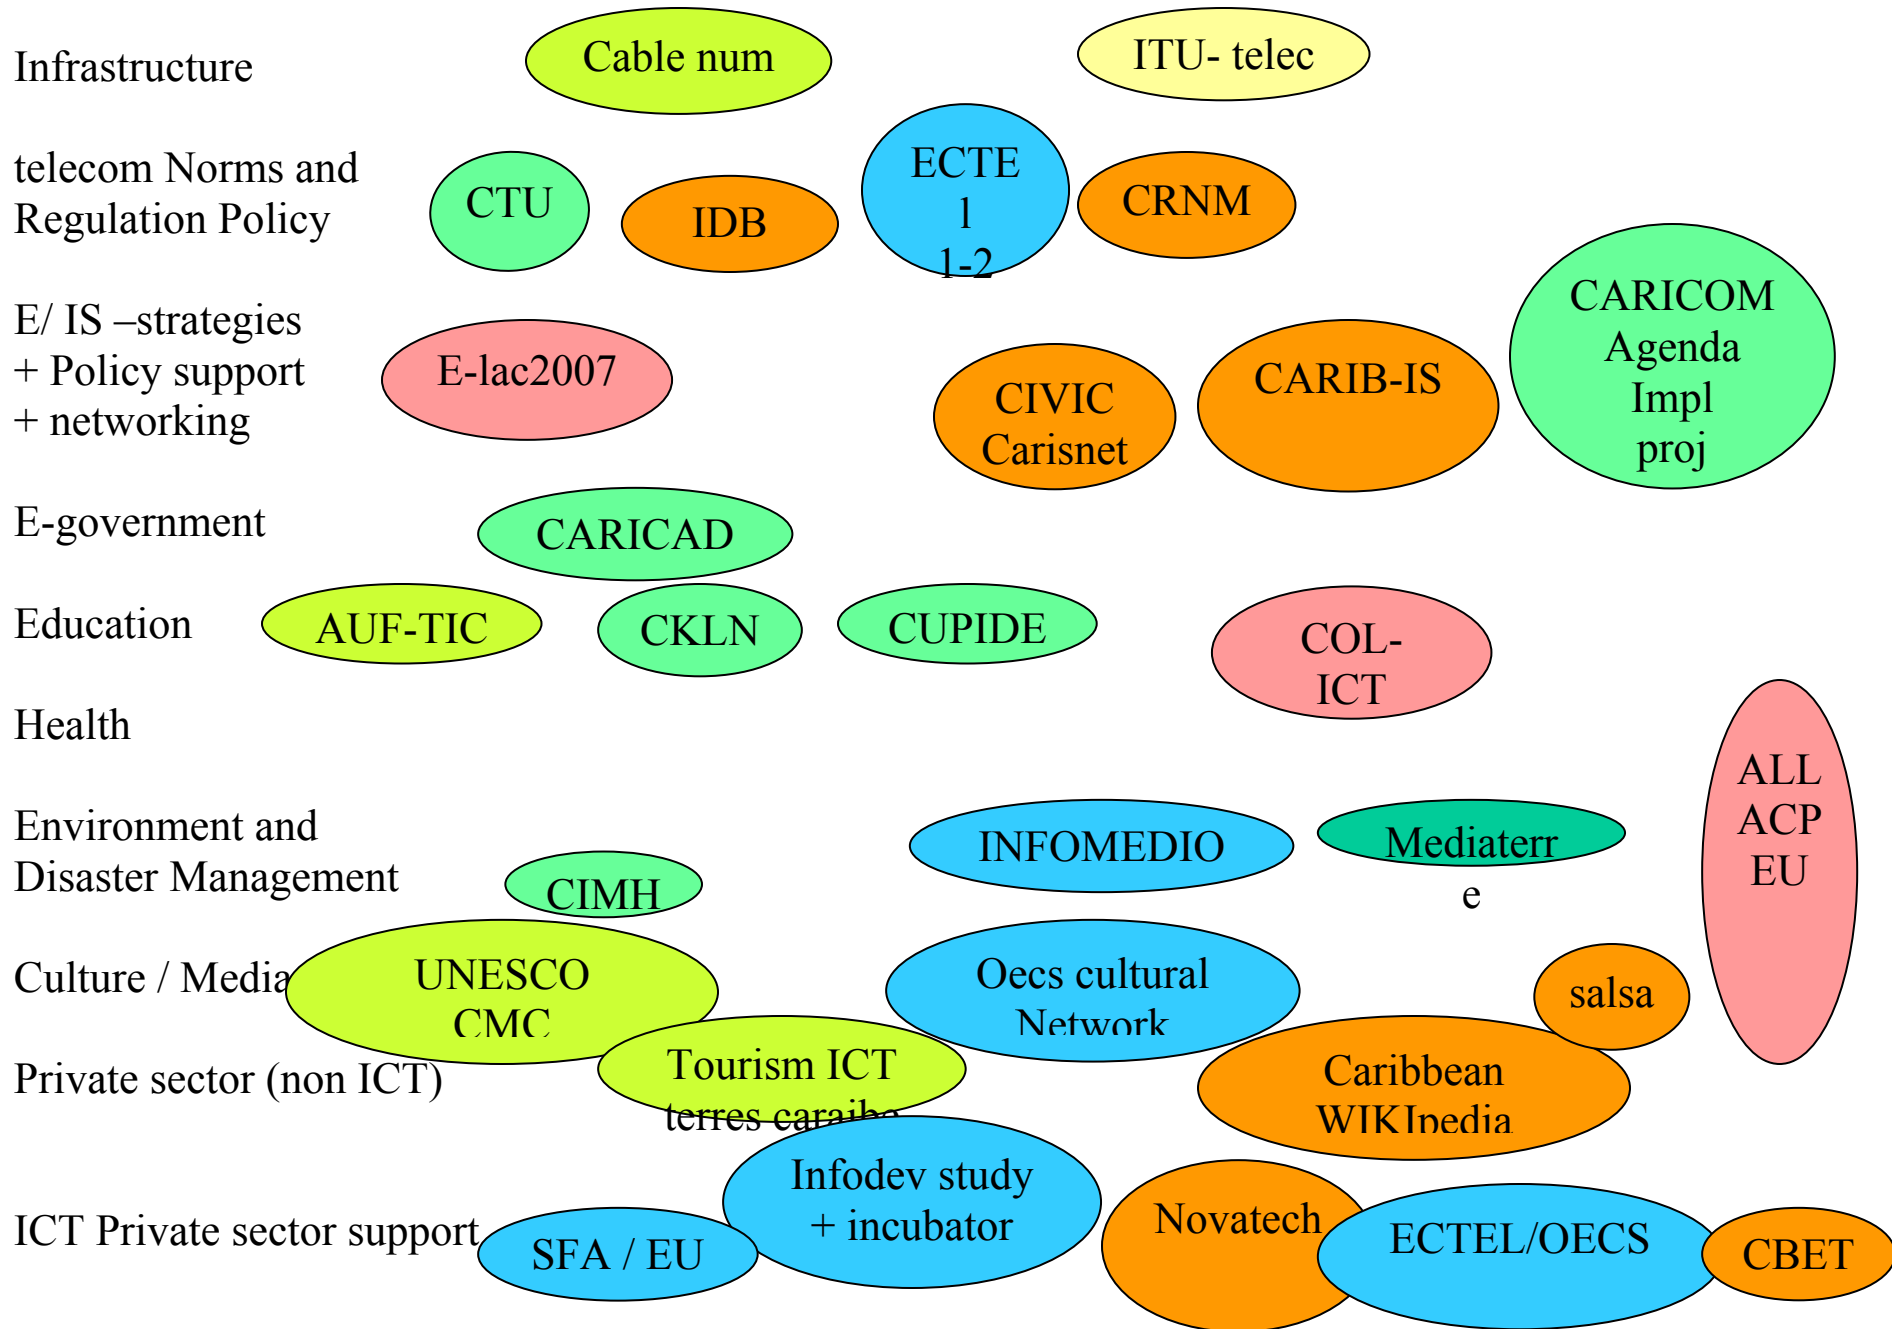

What is mapped

- ICT4D projects. Not Development projects that use ICT (check budget and objectives)
- Regional Caribbean (3+ countries) - omitted national projects
- Donors or NGO or Gov funded, no private sector, no business
- Colors codes: blue = OECS, orange = all caribbean, pink=global or LAC region that include Caribbean, green = Caricom

Rounds size is not related to project size, just matter of fitting the projects names inside.

Request:

Please send any additional project, complement of information or comment to email (yacince-(at)yacine.net)

Caribbean Regional (donors supported) ICT projects

SECTOR	Project name	Countries / Sub Region	Implementing	Funding
Infrastructures	Carib numerique (cable)	French St Lucia Bbds TT	? private sector consortium	Interreg (EU) / Private sector
	CKLN/E-links (education + access)		CKLN unit (OECS- CARICOM)	EU, OECS, CARICOM OAS WB ICA/IDRC with e-Link
